THE RIGHT CHOICE

Essel Retail PHARMASOFT

First of its kind, Presenting an exclusively designed software solution for Retail Pharmacy stores. As it is specially designed for this segment, it has various special features to help faster billing, to control stocks and to enhance Profitability.

Easy to Use:

Essel Retail Pharmsoft is very easy to use windows based application. It takes only 30 min to learn and use for anyone. As it is a true windows based application, it becomes very easy to use.

Ready to Use

It comes with pre-loaded 25,000 items and required Accounts, which means, you can start using the package immediately.

Faster Billing

Essel Retail Pharmsoft comes with faster billing tools to make billing very easy and fast. User can easily generate bill by adding items. Even Sales returns and indents are covered from same screen.

With tools like loose sales, even individual tablets billing can be consolidated easily and instantly. You can re-call these screens instantly.

Quick Search for Items

Items search becomes a toy's play with wide options in search. You can search based on item code / name / composition / generic / company / group. You can also allocate the rack no and view the stocks in desired way

Online Inventory & Accounting

It is a True online application and the moment, when you enter your bill, Sales Register, Stock Book, Daybook, Profit & Loss etc.. all are updated instantly and you can generate required reports

Control Stocks & Enhance Margins

For a Retail Pharmacy, controlling stocks is key, while maintaining the minimum stocks for required items. This solution helps users to maintain the good balance among fast moving and slow moving items, which means, lower inventory and higher profits.

VAT & Statutory Reports

It covers VAT Reports and VAT Documents required for submission can be generated directly. Apart from VAT Documents, A2 Returns & Form-E are also provided

Touch Screen Compatibility

This package is developed with latest technology and hence, it can offer various technical capabilities like Touch Screen control. That means, you can use this application, with help of your finger alone.

Special Reports for Attached Counters

Special Reports were added to help Hospital Attached counters to minimize on Stocks and yet enhance sales & Profitability. Controlling reports for Administrators were designed to take control of Pharmacy.
